The value of diversity

We value diversity in our workforce on the conviction that different perspectives foster creativity, innovation and excellence in decision making. We seek to recruit and retain a workforce that reflects the diversity in our communities. Although we recognize that diversity is expressed in many ways, we solely report on age and gender.

Age diversity at Bentall Kennedy has typically been in line with our competitors. The average age of our workforce was; 44.9 in 2013; 45.8 in 2014; 45.9 in 2015 and 2016, 45.4 in 2017 and 45.3 in 2018. According to the US Bureau of Labor Statistics , the median age for management, professional and related occupations was 44.4 in 2013; higher in some categories, such as property, real estate, and community association managers (50.9 years) and lower in others, such as business and financial operations (43.6 years). In Canada, our largest age group is those 30-50 years old, which is approximately in line with Statistics Canada’s labor information.

Employees by gender and age group

	Male	Female	Total
Under 30 years	71	80	151
30-50 years	318	283	601
Over 50 years	287	183	470
Total	676	546	1,222

Across the organization, our gender distribution is 55% male and 45% female. Like most peers in our industry, males represent a higher ratio than females at senior and executive management levels: 67% male and 33% female. We acknowledge this difference. One way we seek to influence change is to intentionally require external search firms to present diverse slates of candidates and keep gender diversity front of mind in our talent selection processes.
